ANNUAL PIG ROAST

PROCEEDS TO SUPPORT THE SAN SALVADOR NATIONAL PARKS

Join us at this year's Cuban Pig Roast and become a supporter of the San Salvador National Parks and the Bahamas National Trust's vision for their future. These five protected areas represent one of the most unique conservation landscapes in The Bahamas—home to thriving marine habitats, important wetlands, inland blue holes, and critical nesting sites for seabirds. Together, they protect ecosystems that support local livelihoods, preserve biodiversity, and contribute to the resilience of our islands.

Pig Roast 2026 invites you to become a steward of the San Salvador National Parks and a driving force in strengthening their management and long-term sustainability. Proceeds from this year's event will directly support priority initiatives within BNT's two-year co-management workplan, enhancing on-the-ground presence, improving infrastructure, and ensuring these parks are effectively protected and maintained.

Through your support, we can expand conservation efforts, deepen community partnerships, and unlock the full potential of these extraordinary spaces as hubs for research, education, and sustainable eco-tourism. Your participation in Pig Roast 2026 will be instrumental in safeguarding these national treasures. Join us as we work together to protect and celebrate the natural beauty of San Salvador for generations to come.

Join us in our mission to safeguard and celebrate our natural wonders for future generations.
